EPSON

Impeccable print quality and spectacular accuracy with Epson's large format printers.

The new Epson SureColor large format printers are Epson's next generation of high-performance signage printers, which incorporate the latest printing technologies to be Epson's most advanced signage printers to date. The printers come with the new sophisticated precision media feeding system, high-performance printheads, and a myriad of advanced features that enable them to reliably meet the most demanding jobs while minimising operation costs.

INK AND PRINthead TECHNOLOGY

EPSON TOTAL SOLUTIONS

BRILLIANCE IN RELIABILITY

Leading the next generation of high-performance signage printers, the Epson SureColor printers are engineered with advanced functions and the latest printing technologies. With printheads tailor-made to cater to each ink type, the SureColor printers produce impeccable text and image sharpness across a wide range of ink and media with micron-level precision and reliability.

Epson's Piezo Technology

Utilising Epson's Piezo Technology, the SureColor printers can prolong printhead longevity thanks to their heatless system, providing reliable long-term operation. The piezo element also acts as a highly-sensitive sensor that detects irregularities, such as interrupted firing by an air bubble or if rising ink viscosity is causing issues, all within milliseconds.

R-series printhead

Superior Ink Technology

Advanced ink technology from Epson brings a wide gamut of colours that comes with high image quality. The inks are optimised to perform high quality images and reduce machine downtime.

Eco-Solvent Printing

Using Epson UltraChrome GS3 eco-solvent ink – including an all-new Red solvent along with the option for White or Metallic Silver inks* – for outstanding photographic print quality, durability, and media compatibility.

*For selected models only.

Resin Printing

Epson's UltraChrome RS Ink offers wide substrate support. The odourless water-based ink enables the use of printed applications in sensitive environments.

UV Ink

Vibrant 10-colour UltraChrome UV ink, including dedicated red and grey inks, ensures smooth gradation and natural grey effects. The availability of varnish ink creates a visual and tactile experience.

CONNECT. OPTIMISE. GROW

At Epson, we understand that having real-time information at your fingertips is vital to your daily operations. This is why we have introduced the Epson Cloud Solution PORT, an intuitive cloud-based remote monitoring software. Monitor and manage your fleet of printers effectively across multiple sites, or a single site. Epson Cloud Solution PORT can be accessed from multiple devices including PCs, smartphones and tablets.

Fleetwide Printer Management

When managing printer efficiency and usage, intelligent and intuitive production monitoring is essential for maximising productivity, connectivity, and growth. A clear and simple dashboard, drawing from vast amounts of usage data, provides the insight needed to make critical business decisions.

Remote Monitoring System

Designed with simplicity and security in mind, the Epson Cloud Solution PORT provides a live view of your printer fleet production, equipment utilisation, and service information to better manage efficiency and optimise your Epson printing workflow.

Remote Monitoring¹

View live status of the entire printer fleet, output production rates, printer status, errors, and equipment utilisation.

Production Efficiency Tracking & Reporting

Run reports to view total production efficiency, uptime, and printer usage.

Dashboard Tracking

Create in-shop dashboard to internally communicate key performance metrics to employees.

Secure & Encrypted

Data stream and cloud are encrypted end-to-end to protect customers' privacy and usage data.

Mobile Access, No App Needed!

Optimised mobile website allows for easy, remote tracking of printer fleet while on the go.

Expedited Service Response

Epson support helps reduce downtime with fast, remote troubleshooting.

¹ All features of this system require an active internet connection and use of a supported browser.

PRINT APPLICATIONS FOR DIFFERENT SCENARIOS

Versatility meets convenience, fulfilling your different printing needs effortlessly.

ECO SOLVENT

The eco-solvent inks are generally more suitable for general printing of indoor signages (i.e. on PVC material), offering a wide colour gamut and competitive cost per print.

Retail Signage

Event & Exhibition

Backlit

Window Graphic

Window Sticker

UV

UV printing uses a unique drying method compared to the traditional inks where instead of evaporation, they are cured using high-intensity UV lights. This allows operators to use UV printing on **virtually any substrate**, catering to a wider range of media.

ECO-SOLVENT PRINTER

QUITE POSSIBLY THE BEST ECO-SOLVENT SIGNAGE PRINTERS EVER

Epson SureColor S-Series eco-solvent printers offer exceptional productivity, outstanding image quality, and iron-clad reliability.

With lightning-fast printing speeds and lamination capability, the SureColor S-Series printers empower you to turn around jobs fast. Additionally, the automated printer maintenance system lets you focus on printing, not on the printer.

A precision media feeding and take-up system

Ensures virtually any roll media feeds accurately, nearly eliminating buckling and skewing.

Patented technology

Deliver increased speed, rock-solid reliability and unbeatable image quality for customer-pleasing results every time.

GREENGUARD Gold Certified

With low emission and VOC, GS3 inks are safe for indoor use.

ECO-SOLVENT PRINTER

REDUCE INK COSTS WITH BULK-INK EDITIONS

These printers break new ground in sign printing by dramatically reducing ink costs. They deliver fast print speeds, best-in-class 98.2%¹ PANTONE certification² and lamination along with the convenience and savings of bulk ink.

Innovative bulk-ink packs offer low ink cost, so you can print more at a lower ink cost per square foot. Plus, in addition to delivering longer, unattended printing, they reduce plastic waste compared to traditional cartridge systems.

Epson Edge Print Pro

Offers a simple and effective tool for production imaging in environments which do not require advanced workflow management.

A first-of-its-kind fabric wiping system

Improves printhead life while automating maintenance to keep your printer running in top form.

High volume 1.5-Litre bulk-ink packs

Save time and money, reduce waste and increase uptime because you have to replace ink less frequently.

¹ 98.2% coverage of PANTONE PLUS FORMULA GUIDE solid-coated palette on adhesive vinyl media.
PANTONE coverage may vary when printed under other conditions.
² PANTONE® certification applies to SC-S80670L only.

offers **2X**
Ink Capacity

For SC-S60670L and SC-S80670L:

* Based on internal simulation of solid colour printing. Actual result could differ based on printing conditions.

** Ink cartridge and waste ink bottle replacement frequency: Approximately 50% less than the S-series cartridge edition (SC-S40670 / S60670 / SC-S80670).

UV PRINTER

AMPLIFY CREATIVITY WITH CUSTOMISABLE NOVELTY GOODS

Designed for the competitive niche market of customisable products, the Epson SureColor SC-V1030 is the perfect printer for businesses prioritising versatility and performance in their A4 desktop UV printing needs. The printer's extensive substrate compatibility, including wood and stainless steel, consistently delivers high-quality prints, providing new opportunities for businesses.

Note: Jigs are to be purchased separately.

Fine print quality

Achieve impeccable results with fine lines and sharp text on a wide range of compatible substrates. With Epson UltraChrome UV inks, users can expect vibrant outputs in every print.

Smart operation

The Auto Height Adjustment function automatically adapts to substrates up to 70mm thick, while the Wide Gap function enhances clarity on three-dimensional items like golf balls, pens, and phone cases, ensuring optimal printing performance.

Auto Height Adjustment

Wide Gap Function

Flexible placement

With its compact design, the printer fits easily on desks or workbenches for easy job monitoring. The front operation streamlines maintenance and allows wire-free placement at the rear. Multiple units can be positioned side-by-side to maximise space.

A4 Desktop UV Printer

SC-V1030

- Print with high precision, achieving crisp text and detailed images on small customised goods
- Compact front-load design allows for flexible placement in tight spaces without obstructing printing operations
- Maintenance is easy and safe with the no-ink-contact design and automatic wiper unit that deposits cured UV ink into a tank

Easy maintenance and operation

Safe Maintenance

Featuring automatic printhead cleaning function, ink contact is minimised with the wiper unit that cleans and safely deposits cured UV ink into the tank.

Internal Air Circulation

With two built-in air filters that reduces odour, the printer is safe for operation in a closed environment.

Air filter

Large Display Panel

Effortlessly manage and oversee your print jobs, monitor ink levels, and perform printhead cleaning using the LED display panel. The panel also provides convenient visibility in low-light environments.

Print on variety of substrates

Print directly onto a large variety of substrates including wood, stainless steel, acrylic, plastics, ceramic, and more. Businesses can provide high-value novelty goods that are unique and personalised, offering customised products that are not commonly found.

UV PRINTER

PRODUCTION UV FLATBED PRINTER

With the ability to print directly on a wide variety of rigid substrates up to 80mm thick, the Epson SureColor SC-V7000 flatbed printer offers a cost-effective solution for expanding your shop's capabilities. Featuring 10-colour UltraChrome UV Ink, including red and grey inks, it produces bright, colourful, tactile high-quality prints with smooth gradation and neutral greys in record time. Plus, the quick media loading and easy alignment, along with intuitive RIP software makes the SureColor SC-V7000 a breeze to use.

Other brands

Epson SC-V7000
with Variable Droplet

Epson Ultrachrome UV Inks

With up to 10 colour ink sets that provide low graininess and banding, the UV flatbed printer provides highly vivid and consistent prints with its striking reds and stunning colours.

Wide media usage

Automatic detection and adjustment to accommodate media of up to 80mm thick. The four zone vacuum can easily hold media in place securely.

White ink and varnish

Producing rich, high-quality prints on a variety of materials, the White ink and varnish enable operators to print glossy finishes, various textures, and more.
