

A4 COLOUR INKJET PRINTERS
WORKFORCE PRO WF-C5390/C5890

WHERE RELIABILITY
MEETS PERFORMANCE.

Eco-friendly and high productivity printers built for a quintessential office.

Engineered with eco-friendliness and efficiency in mind, the Epson WorkForce Pro WF-C5390/C5890 printers deliver consistent and reliable printing at 25ipm in a space-saving body with a myriad of user-friendly functions. Built with Heat-Free Technology, these printers are energy and resource saving as they use lesser power, consumables, and replacement parts as compared to a laser printer*. The highly durable and efficient business inkjet printers are equipped with high-yield ink packs, reducing maintenance downtime. Providing a wide range of software solution with versatile connectivity, Epson’s WorkForce Pro multifunction business printers are perfect for the quintessential office.

IT'S IN THE DETAILS.

Energy-and Resource-Saving

The eco-friendly printers use less power, cosumables, and replacement parts, and are built with 5% recycled plastic.

Improved Productivity

Printing at an improved speed of 25ipm with fast First Page out Time (FPOT), the printer also supports various software solutions.

Stress-Free Operation

The WF-C5390/C5890 is packed with a multitude of new features to enhance usability, such as new user interface and high capacity ink packs.

A4 COLOUR INKJET PRINTERS WORKFORCE PRO WF-C5390/C5890

Durable and cost efficient, the eco-conscious Epson WorkForce Pro WF-C5390/C5890 inkjet printers offer outstanding print performance, coupled with wide array of software solutions for highly productive office printing. Equipped with a variety of user-friendly functions and versatile connectivity features, rest assured that you can print with ease for your everyday business.

PrecisionCore Printhead Technology

PrecisionCore builds on Epson's longstanding reputation for output quality, at the speeds and reliability required for commercial and industrial printing.

This revolutionary technology enables the WF-C5390 and WF-C5890 to print at blazing default print speeds of up to 25ipm and a first page-out time of just 5.0 seconds*. What's more, each print chip is capable of generating up to 40 million precise dots per second to deliver fast printing speeds and excellent output quality.

With advanced built-in Nozzle Verification Technology, the monitoring of nozzle health and print quality adjustments are done automatically without interruption, even during printing. Productivity is further enhanced with a reliable maximum monthly duty cycle of 45,000 pages.

*For mono printing.

Simple, cool, contactless technology

Complex technology using heat and pressure

Built for the Environment

Energy Saving

Demonstrating Epson's ongoing commitment to cut the environmental impact of printing, the new WorkForce Pro are low-power printers that use fewer supplies and consumables than comparable laser models – reducing environmental impact without compromising on output.

Both Epson WF-C5390 and WF-C5890 have remarkably low TEC values of just 0.2kWh. What's more, power consumption during standard operation is kept at a minimum with the WF-C5390 using only 25W and the WF-C5890 at 27W. These are significantly lower than laser copiers/printers. And unlike conventional laser copiers/printers, they use no heat and are more environmentally friendly.

Innovative Replaceable Ink System

Convenience is a top priority. That's why Epson's Replaceable Ink Pack System (RIPS) is designed for easy, hassle-free ink replacements. With each standard ink pack giving you up to 3,000 pages in black or colour and the option to purchase XL black ink pack that prints up to 10,000 pages, you minimise the downtime needed to replace the inks and enjoy greater cost savings.

In addition, Epson's DURABrite™ Ultra ink delivers laser-like quality prints that are water- and smudge-resistant.

Designed for easy replacement of ink packs

Engineered For Stress-Free Operation

USB Host Function

The WF-C5890 comes with a USB port for printing, scanning and saving faxes directly using the memory devices.

Versatile Paper Handling

Both printers can be upgraded with up to 3 additional paper cassette units to support up to 1,830 sheets input capacity. Paper of different sizes can be placed in the different cassettes for automatic selection. The rear tray enables the use of special media such as photo media.

Automatic Duplex Printing and Scanning

Both printers support automatic duplex printing of documents up to A4 size, reducing paper wastage. The duplex ADF unit on the WF-C5890 enables convenient scanning and copying of multi-page documents.

LCD Screen

Experience easy set-up and PC-less operation with a 2.4" colour LCD screen on the WF-C5390 and 4.3" colour touch screen on the WF-C5890. For convenience, the LCD screen comes with a new colour-coded user interface design.

Versatile Connectivity

Network Connectivity and Standalone Capability

Equipped with Ethernet, Wi-Fi, Wi-Fi Direct and RJ-11 fax (WF-C5890), these printers are perfect for office environments. What's more, Wi-Fi Direct acts as an access point, allowing up to eight devices to connect directly to the printer at the same time.

Robust Security Features

Confidential Job

Prevent unattended prints by sending print jobs with a PIN for release in the panel.

IP Address Filter

Secure the printer by preventing unauthorised devices from connecting to it.

Panel Admin Mode

Prevent unauthorised users from changing the printer settings by setting a password for the administrator.

Access Control

Limit the use of the MFP features by account control. Up to 10 user accounts can be set.

LDAP Address Book Only for WF-C5890

Reduce the risk of information leakage due to mistakes in the target recipient's email address.

Epson Solutions Suite

Print Management

Epson Print Admin

A server-based solution that creates a secured centralised printing, scanning and copying environment through user authentication. Advanced reporting functions can help organisations reduce printing costs and run Managed Print Programmes.
