

Compact in Size, Powerful in Performance.

Signstar UV-6090

The Signstar UV-DTF UV-6090 is a high-performance A2-size UV printer designed for direct-to-film (DTF) printing, allowing vibrant, full-color transfers onto a wide range of surfaces—glass, plastic, wood, metal, leather, and more. Ideal for custom labels, packaging, tumblers, and promotional items, it offers exceptional print clarity, strong adhesion, and quick curing using UV LED technology. With its compact design and user-friendly operation, the UV-6090 is the perfect solution for businesses seeking efficient, durable, and versatile printing.
